Brad,  
Are you available to go out to SH Bell this week? I am at Federated Metals filling in for Andy. Could come over for a bit but pretty tied up here.

Hi Steve,

Sounds good, I'll reach out to envirovision today to get moving on that. I can plan on sampling later this week, maybe Wednesday or Thursday again? Just let me know!

Thanks,  
Rachel

Thanks Rachel. I spoke to mike Ribordy today he wants us to run around 10 of the highest lead samples to determine if the lead is from an industrial source. Similar to what Craig Thomas just did with the lab is it enviro vision? Can you get a bid and karina and I could pack and ship from whiting next week Do you want to plan any sampling at sh bell for next week. We knocked all but one house on your list from yesterday

Hi Steve and Brad,

Happy Friday! Attached is the most recent version of the SH Bell Level II data. We had one duplicate sample come back over the RML for Manganese, and one sample with lead concentrations just over 400. Please let me know if you have any questions.

Thanks!
